SUMMARY

AI & Full-Stack Developer with expertise in building scalable, production-grade web applications and integrating intelligent AI systems. Proven success in bridging advanced language models, including RAG pipelines and LangChain agents with modern frameworks (Next.js, Node.js) to deliver secure, end-to-end solutions. Skilled in Python, LangChain, FAISS, MongoDB, and RESTful API architecture.

EDUCATION

B.Tech in Information Technology, 2021 – 2025
Chhotubhai Gopalbhai Patel Institute of Technology, Uka Tarsadia University
CGPA: 7.05

EXPERIENCE

- Torque Engineering, Bharuch, AI Software Developer** 10/2025 – 03/2026 | Remote
- Architected and deployed scalable full-stack web platforms using Next.js, Express, and MongoDB, integrating custom Python-based AI agents via LangChain to bridge advanced LLM capabilities with user-facing interfaces.
 - Developed robust RESTful APIs to facilitate real-time, secure communication between frontend architectures and backend AI microservices, managing seamless CI/CD deployment pipelines via Vercel.
- OMTECWEB Technologies, Surat, AI Engineer Intern** 01/2025 – 06/2025 | Surat
- Built a web-based AI voice assistant with voice/text interaction using Flask.
 - Integrated Cohere's LLM with LangChain for context-aware responses.
 - Implemented Retrieval-Augmented Generation (RAG) using FAISS for PDF-based Q&A.
 - Designed modular backend architecture and dynamic knowledge base.
- Krtya Technologies Pvt. Ltd., Surat, Full-Stack Developer Intern** 05/2024 – 06/2024 | Surat
- Developed an online movie ticket booking platform using Next.js, Node.js, Express, and MongoDB.
 - Created responsive UI with Tailwind CSS and real-time seat selection.
 - Designed admin panel with analytics and deployed via Vercel.
- SSIP Hackathon Finalist Project, Anand, UI/UX Designer** 10/2023 – 02/2024 | Anand
- Designed user-centric interfaces for a Placement Android App using Figma.

TECHNICAL SKILLS

AI & Data Processing LangChain, FAISS, Cohere API, RAG, LLM Integration, Prompt Engineering, Voice AI, gTTS, SpeechRecognition, NLP	Backend Python, Flask, Node.js, Express.js, RESTful API, Microservices Architecture, FastAPI	Frontend Next.js, React.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS	Database PostgreSQL, Vector Databases
DevOps & Tools Git, Vercel	Design & Creative Figma, Procreate, Canva, DaVinci Resolve, Affinity, Adobe Illustrator		

PROJECTS

- AI Voice & Chat Assistant, Flask, LangChain, Cohere, FAISS**
Production voice AI with RAG-powered PDF Q&A, multi-turn context, and dual voice/text modes — full system from speech input to LLM response
- Bucket List Web Application, Next.js, Vercel**
Full-stack goal-tracking web app with user auth, CRUD operations, and live deployment demonstrating clean Next.js architecture
- Video Calling Web App, Responsive static web app**
• Peer-to-peer video calling interface using WebRTC (responsive static)
- Portfolio Website, Next.js, Tailwind CSS**
